Family Science Discovery Days:
Hands-on science learning and fun days for the general public take place on the first or second Saturday of each month. (Please note that we are open every Saturday during the academic year in addition to these special monthly events.) Each family day features a different topic with learning stations and related crafts activities. These public events run from 1:00pm until 4:00pm throughout the museum. Fee: $3 special admission (4 and under free). Consult the museum C alendar of Events
for details.

(Family Science Discovery Day activities subject to change)

”Become a Junior Paleontologist!” Program
This afterschool enrichment program for 2nd-4th graders meets weekly for one month to discuss what fossils are and how paleontologists study them. Each 1 ½ -hour class includes a short discussion complemented by a number of hands-on activities. Dates for the 2015 session are being decided; a $50 registration fee covers all four sessions. Please consult the museum’s Calendar of Events for schedule details. Contact Kathy Sanders at (909) 482-5225 for more information.
